Have a wardrobe crammed full of clothes but never have anything to wear?

Often feel intimidated by over-zealous assistants?

Impulse buy, then regret your purchases?

Think a Personal Shopper or Stylist is only for the rich and famous?

The Personal Shopper offers:

Shopping companion service
 Wardrobe consultancy
 Image consultancy
 Presentations

Personal Shopping

Do you:

- ❖ Find sales assistants intimidating/disinterested?
- ❖ Find you cannot visualise what will enhance your existing pieces?
- ❖ See something you like but need an honest unbiased opinion?

We can all recall a bad experience with a sales assistant who is pushy or dismissive. Worst still, many of us have returned home with things which are totally unsuitable because the assistant advised it looked stunning.

The Personal Shopper will accompany you, advise you on style and colour and give an honest unbiased opinion. Whether you are on a quest for a special outfit or simply after those long-desired-for perfect jeans, The Personal Shopper will accompany you so you make the right choices.

The Personal Shopper is on hand to help for either two hours, a half day, or if your stamina allows, a full day's shopping.

Wardrobe Consultation

Do you:

- ❖ Feel traumatised first thing in the morning with outfit selection?
- ❖ Have 12 pairs of black trousers identical in shape and style?
- ❖ Think you should bin the lot and start again?

The majority of us wear only a fraction of our clothes, wearing the same items day in/day out. It is not that we do not have enough clothes, sometimes it is the case of having so many clothes we lose sight of what we have.

The Personal Shopper provides a fresh pair of eyes to help you see what a gem your wardrobe can be.

Working with your existing wardrobe of clothes, The Personal Shopper will create new looks to allow you to make the most of what you have. Those items you love but never wear because you're not sure how to style them are no problem to The Personal Shopper, as she styles a whole new look for you. You really will be amazed by how many different ways you can wear even the smallest amount of clothes.

Each look will be photographed and a personalised catalogue of "looks" will be produced and sent to you after the session.

"It made getting ready each day a breeze. I never realised that with a small selection of clothes I could make so many different outfits."
Samantha

"I was a little nervous beforehand as I thought Elizabeth might discard my entire wardrobe as unfashionable but she came in, showed me how to dress for my body shape and reinvigorated my wardrobe putting things together in a way I would never think of. It was really helpful, especially since I don't have a lot of spare cash for new clothes, so finding new ways to wear the ones I have is brilliant."

Sara

Image Consultancy

Do you:

- ❖ Feel stuck in a style rut?
- ❖ Feel you need a professional re-brand?
- ❖ Dress for the job you have rather than the one you want?

The Personal Shopper can help you achieve the look you want, whether you are after a promotion at work, commencing a new career, returning to work after a maternity break, or simply approaching a milestone birthday.

As part of the image consultancy, The Personal Shopper will analyse your wardrobe with her three step approach. All items will be scrutinised and the those deemed "dead" will be removed, those in need of "resuscitation" will be repaired, and the rest will be styled, organised and catalogued. Additions to rejuvenate and invigorate will also be agreed. The Personal Shopper will give you advice on dressing for your body shape, together with personal grooming ideas and techniques.

The Personal Shopper will then accompany you on a shopping trip, helping you select the agreed upon items to ensure that your image overhaul is complete.
